

Ultrasonic Cleaner

Remove contaminants

About this product

Industrial-Grade Cleaning Solution: This Labosys® 30L Industrial Ultrasonic Cleaner is designed for heavy-duty cleaning tasks, suitable for various industries such as manufacturing plants, machinery repair shops, and food & beverage factories.

Multi-Frequency Capability: The cleaner features a frequency range of 28/40/68/120kHz and >120kHz, allowing for flexibility in cleaning different types of materials, including metal, coil, and plastic.

User-Friendly Design : The machine is equipped with a built-in generator and can operate continuously for 0-99 minutes, providing convenience for users who require prolonged cleaning sessions.

Durable Construction: The cleaner's tank is made of high-quality SUS304/SUS316 material, ensuring durability and resistance to corrosion, while the circuit board core component is also covered under a 1-year warranty.

Compliance with Global Standards: This product meets international standards, with a provided machinery test report and video outgoing-inspection, making it a reliable choice for users worldwide, especially for our customer from the US.

Applicable Industries

Hotels, Garment Shops, Building Material Shops, Manufacturing Plant, Machinery Repair Shops, Food & Beverage Factory, Farms, Restaurant, Home Use, Retail, Food Shop, Printing Shops, Construction works , Energy & Mining, Food & Beverage Shops, Other, Advertising Company, Electric Parts

Ultrasonic Cleaner

Remove contaminants

Production Application

Applicable objects

- Watch and clock making
- Glasses making industry
- Electroplating industry

Main usages

- Cleaning of precision mechanical
- Cleaning of metal parts
- Cleaning of optical glasses

Hardware parts

Auto parts

Mould

Mechanical repair

Electronics

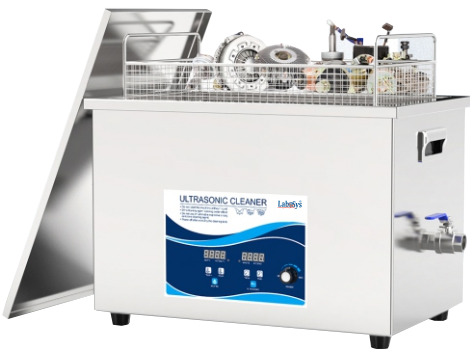

Aviation vessel

Experiment

Filter element
